

SLA Calculator!

Made by JD Mitchell

The screenshot shows the 'SLA Calculator!' application window. At the top, it has a menu bar with 'File', 'Edit', 'View', 'Window', and 'Help'. Below the menu bar, the title 'ingenico SLA Calculator!' is displayed. The main interface includes a 'Current Time' section with fields for 'MON', '08/12/2025', '10:10', and a 'VIC' dropdown menu. On the left, there is an 'SLA Selector' with 'Bank' and 'SLA' options, and a 'Quick Reference Guide' button. The central 'Operating hours' section features dropdowns for 'MON' and 'FRI', input fields for 'Opening' and 'Closing' times, and a 'remove' button. Below this is an 'Add More' button. At the bottom, there are 'Calculate' and 'Reset' buttons, followed by 'Calculated SLA' fields for 'Day', 'Date', and 'Time'. A red bar at the bottom indicates 'Business Hours'. The footer contains 'Ver. 1.3.0', 'Copyright © 2025 Ingenico', and 'Created by JD Mitchell'.

SLA Selector

- Bank
- SLA

State Selector

Operating Hours: Monday – Sunday

- Opening time to Closing time

Calculated SLA output:

- Day
- Date
- Time

Business Hours output

Quick Reference:

1. Select a State from the state dropdown menu.
2. Select a bank from the Bank dropdown menu on the SLA selector.
3. Select an SLA from the dropdown menu.
4. Select a starting day in the dropdown menu and an ending day from the dropdown menu.
5. Enter in an Opening Time and a Closing Time in 24-hour time in numbers only, i.e. 0900 for 9 AM and 1800 for 6PM.
 - If you need to add more times, click on the “Add More” button.
 - If you require a single day, i.e. late-night Thursday from 0900 to 2100, set the starting and ending days as the same day i.e. THU to THU and then desired opening and closing time.
 - For businesses that are open 24/7, select MON to SUN and set the opening and closing times to 0000.
 - For any day or group of days that are closed, you can select the starting and ending days and then simply type “closed” without quotes into the opening time.
 - If you need to remove any days that have been added by mistake, click the minus button.
6. Once all days and times have been added, click on Calculate to get a calculated SLA.
7. Click on the Copy Date, Copy Time and Copy buttons to copy the date to the clipboard that can be pasted into CAMs.
8. To reset the page, click on the reset button.
